

## European conference organised by EUROGIP

What are the challenges and the opportunities of the digital transformation as regards health and safety at work in Europe? The question will be at the heart of the EUROGIP Discussions that will be held on 15 March 2018 in Paris.

The round tables will address this issue from different angles: the influence of ICTs on work organization, the impact of the digital economy on the insurance and prevention of occupational injuries with a focus on online platforms, the point of view of European social partners.

The conference is addressed to representatives of public authorities, companies (employees, HR, safety managers, QHSE & CSR, ...), social partners, prevention specialists, doctors and nurses, consultants, academics, etc.

The EUROGIP Discussions will be moderated by the journalist Régis de Closets.

Simultaneous French / English translation will be provided.

## PROFILE OF CONTRIBUTORS

**Joachim BREUER** is Director General of DGUV, the German Social Accident Insurance, which covers more than 70 million people, and President of the International Social Security Association (ISSA). After studying law at university in Bonn and Berlin, he obtained his degree in 1984 and became a Doctor of Law in 1985. Joachim first worked for the German Federal Ministry of Agriculture and Forestry before joining the Federation of German Accident Insurance Institutions (HVBG). In 1995, he became Director General of the Accident Insurance and Prevention Institution for the German Mining Industry and in 2002, he returned to the HVBG, now DGUV, as Director General. Besides his occupation, Joachim holds a leading position in several other German organizations. His international affiliations most notably are: Vice-President Europe of Rehabilitation International (RI), President of the "Club de Genève - Global Social Future", which he founded, and co-President of the International Disability Management Standards Council (IDMSC, Canada). He is also a member of the Board of the European Forum of insurances against accidents at work and occupational injuries and of the Pacific Coast University (PCU) in Canada.

**Jorge COSTA-DAVID** is a Principal Administrator in the European Directorate-General for Employment, Social Affairs and Inclusion / Health and Safety Unit. His current responsibilities cover policy initiatives and respective follow-up on occupational diseases, asbestos, nanomaterials and nanotechnologies, mental health and psychosocial issues in the workplace. Previously, Jorge worked in the Commission's Directorates-General for Enterprise (Entrepreneurship and SMEs), Health and Consumer Protection and Environment. Experience prior to working for the European Commission includes 9 years of medical practice, 5 years of secondary school teaching and 5 years of interpreting/translation work. Jorge is eclectic, having degrees in medicine (MD), public health (DipPH), education (MA), modern languages (MIL) and business administration (MBA).

**Christian EXPERT** is Vice President of the Board of EUROGIP and Medical Officer Coordinator of an inter-company civil engineering department in Nice (France). As CFE-CGC representative, he has just been appointed 2nd Vice-President of the National

Commission for Workers' Occupational Injuries after having been Alternate Counsellor and then Full Counsellor since 2003. Obtained his medical doctorate in 1981, Christian also holds a Certificate in Occupational Medicine - which he has practiced since 1983 -, a DESS in Labour Relations Law and a Certificate of Judicial Expertise.

**Yann FAVRY** is Quality, Safety and Environment Manager at Schmidt Groupe, the leading French kitchens manufacturer with the Cuisines Schmidt and Cuisinella brands. In particular, he supervises a team of nine technicians, manages the QSE

programme and implements management systems that comply with ISO 9001, OHSAS 18001 and ISO 14001 standards in production plants. After a university degree in Life Sciences & Chemistry, Yann obtained a Master's degree in Safety, Health and Environmental Management (University of Mulhouse), then an engineering degree in this field (University of Wuppertal) and an MBA in Sustainable Development and Corporate Social Responsibility (Strasbourg School of Management), all with honours. Nominated "Digital Company of the Year" by Usine-Digital.fr in 2014, Schmidt Groupe has embarked on a strategy of robotization and digitalization in order to increase the quality of its products, while giving priority to the human aspect.

**Liliana GORLA** has been Human Resources Director of Siemens SAS France since October 2015. She started her career at Siemens in 2001, in charge of the Compensation & Benefits department. From 2003 to 2007, Liliana was Director of Human Resources for

one of the group's companies. After 3 years at the head office in Munich, she took over responsibility for Talent Acquisition and Employer Branding in Italy from 2010 to 2012. Prior to joining Siemens, Liliana developed her skills in various HR functions as a manager at Ernst&Young and 3M Italy, where she started her career after studying languages. She is passionate about social media and committed to the cultural and digital transformation of the company.

**Raphaël HAEFLINGER** has been Managing Director of Eurogip since 2007. Most of his career experience has been with the French national health insurance fund for employees (CNAMTS), first as manager of relations with the healthcare professions, and then as head

of the Director's office and Office Director. In 2003, Raphaël

entered the Occupational Risks Department (DRP) of the CNAMTS as special adviser to the Director, before taking charge of the Occupational Risk Insurance Department.

**John HARKIN** is a Senior Policy Advisor at Ceemet, the leading European lobbying organization and the recognized social partner of manufacturing industries on employment and social policy issues. John is a graduate of the Dublin School of Business, he

has an MBA, and is a former Parliamentary Adviser with the European Parliament. With over 10 years of legislative experience, John is an expert in employment and social affairs. In his day-to-day work, he advises the members of this organization which represents more than 200,000 manufacturing companies across Europe, providing 35 million direct and indirect jobs. Ceemet also drives European sectoral social dialogue with its counterpart trade union, IndustriAll.

**Marine JEANTET** is Occupational Risk Director at the French National Health Insurance Fund for Employees (CNAMTS). She is a specialist public health doctor who started her career in 2002 with the French Agency for Healthcare Products before

joining the Agricultural Social Insurance Mutual Benefit Fund as an expert on drugs and medical devices. In 2007, she joined the Social Security management team as assistant to the Deputy Director for financing the healthcare system, notably taking charge of establishing and monitoring the national health insurance spending target ("ONDAM"), and coordinating the health insurance part of the draft Social Security Financing Act. In 2010, she became a medical adviser to the Social Security Director and worked on subjects such as the modernization of the healthcare offering and experimenting new systems of remuneration for healthcare professionals in healthcare homes, hubs and centres. In 2011, she joined the Inspectorate General of Social Affairs and carried out various assignments, chiefly in the field of healthcare and social welfare. In early 2015, Marine joined the CNAMTS.

**Stephen KINGHORN-PERRY** is Head of the Foresight Centre of the UK Health and Safety Executive. He is professionally qualified (H&S and clinical microbiologist) with experience in both the private and public sector. He worked for 17 years in clinical laboratories, before

joining HSE as specialist inspector (microbiology) in 1999. He has

worked in several Divisions and Units of the HSE. He has acted as the lead inspector for microbiology in the Defence, Science and Technology Laboratory, undertaken biocide exposure assessments, worked with European colleagues to implement new exposure assessment tools, led on risk communications and foresight work, helped implement new government policy for working with biological agents following the Pirbright foot-and-mouth disease outbreak and worked in the Office for Nuclear Regulation.

**Bruno MAGNIN** is Director of Quality, Safety and Environment (QSE) Sustainable Development at Bouygues Bâtiment International since April 2016. A graduate of the Institut du Nord (now the École Centrale de Lille), he has specific expertise in safety and health management, ISO 9001, ISO 14001, OHSAS 18001 and ILO OSH 2001 management systems, and the implementation of LEAN procedures for construction operations. Bruno is also President of the *Association des animateurs sécurité des entreprises du BTP (ASEBTP, Association of Safety Coordinators for Construction Companies)*. In his opinion, prevention has everything to gain from new technologies.

**Marc MARANZANA** is Director of Open Innovation and Digital Technology at Colas, the world leader in the construction and maintenance of transport infrastructure. Prior to that, he was Director of Material Investments for Northern Europe. Marc has launched a number of innovative projects, including that relating to an outpatient industrial exoskeleton, with a world first prototype in 2014 and the deployment of a preproduction model on site in 2017. In 2006, he was also a pioneer in on-board telematics for construction machinery on the entire Swiss fleet, connecting 100% of construction sites. He also helped introduce the world's first ultra-vacuum flat plate solar thermal field in an existing industry (180°C working temperature) in 2009 and, in 2013, contributed to the invention of a tunnel machine that can wash a half-arch in a single pass at 2.5 km/h, thereby saving water and energy and reducing exposure to spray.

**Lorenzo MUNAR** has been working as a Project Manager with the European Agency for Safety and Health at Work (EU-OSHA) since October 2006. He is currently managing the OiRA project, a legacy of the 2008-09 European Campaign on Risk Assessment and he is the content manager of the forthcoming Healthy Workplaces

Campaign on Musculoskeletal Disorders. Before joining the Agency he worked as a researcher at the Université Libre de Bruxelles, where he carried out several studies on stress, OSH and gender issues and occupational risk prevention in various sectors of activity.

**Stéphane PIMBERT** is Director General of the Institut national de recherche et de sécurité (INRS), headquartered in Paris and the Lorraine Research Centre. The Institute works on occupational disease and injury prevention in France. Before this appointment in July 2009, Stéphane was Director of the INRS Research Centre from 2007 to 2009. A graduate in Law and Political Science, he has worked as an organizational consultant for Eurogroup Consulting and as Secretary General of the Services branch of the French Association for Quality Assurance/Association Française de Normalisation (AFAQ/AFNOR).

**Jérôme PIMOT** is the co-founder of CLAP, the Collectif des Livreurs Autonomes de Paris. A former courier for the Deliveroo bike delivery service, he is now campaigning against the Uberization of work. A trade-unionist and self-employed entrepreneur, Jérôme is also the National Coordinator of CAVAL (Coordination d'Action Vers l'Autonomie des Livreurs), and the Vice-President of CoopCycle, an open-source software for cooperative delivery.

**Susanne ROSCHER** is Head of the Occupational Psychology Department in the field of OSH at the German Institute of Accident Insurance for the Administration (VBG). An expert in "Work 4.0", she also heads the "New forms of work" group within DGUV, the German Social Insurance for Occupational Injuries. During her studies, Susanne focused on work and organizational psychology. She then worked as a researcher on these topics at the University of Hamburg, specializing in stress and conflict management. Susanne received her PhD for her research on "Conflict Management and Harassment Prevention".

**Katalin SAS** has been working as a project manager in the Prevention and Research Unit of the European Agency for Safety and Health at Work (EU-OSHA) since 2009. Recently she was involved in the European Parliament's pilot project 'Safer and healthier

work at any age', focusing on occupational safety and health in the context of an ageing workforce, and she was the content project manager for the 2016-17 EU-OSHA Campaign on 'Healthy Workplaces for all Ages'. She is also the project manager for activities related to research coordination and OSH research priorities. Between 2002 and 2009, before she joined EU-OSHA, she worked for the Finnish Institute of Occupational Health, where she was involved in research and project management for various occupational safety and health-related European projects.

**Bert SCHOUWENBURG** is the International Officer for GMB, one of Britain's largest trade unions with some 620,000 members in both the private and public sectors. He has worked for GMB for nearly 25 years, initially for the London Region and then in the National

Office where he is responsible for implementing GMB's foreign policy on issues concerning trade relations, corporate supply chains and development initiatives. His particular sphere of interest is in Latin America where GMB have strong connections in a region at the forefront of the fight against precarious work.

**Antonio TERRACINA** has been "Tariff and Risk" manager of the Technical Advisory Board for Occupational Health and Safety (CONTARP), Italian Workers' compensation Authority (INAIL) since 2013. After graduating in chemistry in 1994, he worked for two years

for the Cyanamid Agriculture division of American Home Products. Since 2000 he has worked on the Technical Advisory Board for Occupational Health and Safety (CONTARP) of INAIL. He has worked for several years in the field of OSH, handling several projects aiming to reduce insurance premiums for "safe companies" or to grant funds for improving health and safety in the workplace. He is involved in several standardization and accreditation processes mainly dealing with OH&S-MS, and represents Italy on several international committees: delegation head for PC283 for the ISO 45001 project; CEN advisory committee on OH&S (SAB-OH&S) in Brussels; Advisory Committee for Safety and Health (ACSH) of the European Commission in Luxembourg. Since 2006 he has been certified as an OHSAS 18001 auditor. An instructor on several training courses on OH&S for companies and the academic world (La Sapienza and Roma3 Universities), he is the author and co-author of several publications including a software for the calculation of "non-safety cost".

**Thierry VENIN** is an associate professor at the Université de Pau et des Pays de l'Adour (UPPA) for the Master's degree in sociological studies and communication technologies (ICT), and associate doctor of the Joint Research Unit (UMR 5319) CNRS-UPPA on

psychosocial and ICT risks. After having been Director of Information Systems, he heads a computer engineering agency (Numérique64) specialized in educational ICT (EICT), ICT and solidarity (disability, loss of autonomy, distressed populations, e-inclusion), modernization of public action, and IT assistance to client organizations. Finally, Thierry is the author of a book entitled "Un monde meilleur ? Survivre dans la société numérique" (A better world? Surviving in the Digital Society) published by DDB.

**Thiébaud WEBER** was elected Confederal Secretary to the European Trade Union Confederation (ETUC) at the 13th Congress in Paris in 2015. A young trade unionist and former student activist in his native country, he has been a member of the Confédération

française démocratique du travail (CFDT) since 2007, first as a youth delegate and then, in 2014, as a policy adviser for international and European affairs. From 2011 to 2013 he chaired the ETUC Youth Committee. Born in Mulhouse, he studied history at the University of Haute Alsace and remained passionate about history. During his studies, in 2005, he became President of the Association fédérative des étudiants du Haut-Rhin, then in 2006 of the Fédération nationale des Associations Générales d'Étudiants (two student organizations). In 2014, Thiébaud completed a Master's degree in Continuing Education in Employment and Skills Management at the University of Paris I. He is also an avid reader and rugby player.
