

New standards publications, new works, registration of new subjects or comity creations... Below is the result of the monitoring that EUROGIP does, as part of its standardization activity in health and safety at work. Do not hesitate, if you are interested in the subject, to position yourself and participate.

### Health and Safety at Work standards published

- **NF X46-101** Asbestos tracking - Identification of materials and products containing asbestos in ships, boats and other floating structures - Mission and methodology
- **NF X50-162** Road risk prevention - Advice and training on road risk prevention - Services provided by advisory and training bodies
- **EN ISO 4007** Personal protective equipment - Eye and face protection - Vocabulary
- **EN 358** Personal protective equipment for work positioning and prevention of falls from a height - Belts and lanyards for work positioning or restraint
- **EN 13832** Footwear protecting against chemicals
  - Part 2: Requirements for limited contact with chemicals
  - Part 3: Requirements for prolonged contact with chemicals

### New Health and Safety at Work standards work

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

#### **Cranes**

- **ISO 12210-5** Cranes - Anchoring devices for in-service and out-of-service conditions - Part 5: Bridge cranes and gantry cranes

#### **Personal protective equipment**

- **00162439** Personal protective equipment - Smart garments - Terms and Definitions

#### **additive manufacturing**

- **EN ISO/ASTM 52910 Revision** Additive manufacturing - Design - Requirements, guidelines and recommendations

#### **Aircraft ground support equipment**

- **EN 12312 Revision** Aircraft ground support equipment - Specific requirements
  - Part 1: Passenger stairs
  - Part 4: Passenger boarding bridges
  - Part 9: Container/Pallet loaders
- **EN 1915-1 Revision** Aircraft ground support equipment - General requirements - Part 1: Basic safety requirements

#### **Mechanical vibration and shock**

- **ISO 15230** Mechanical vibration and shock - Coupling forces at the man--machine interface for hand-transmitted vibration
  - Part 1: Measurement of coupling forces
  - Part 2: Guidelines for the evaluation of coupling forces
