

New standards publications, new works, registration of new subjects or comity creations at the European (CEN) or international (ISO) levels... Below is the result of the monitoring that EUROGIP does, as part of its [standardization activity](#) in health and safety at work (OS&H). Do not hesitate, if you are interested in the subject, to position yourself and participate.

### OS&H standards published

- **NF ISO 12117-2** Earth-moving machinery -- Laboratory tests and performance requirements for protective structures of excavators -- Part 2: Roll-over protective structures (ROPS) for excavators of over 6 t
- **NF X43-269** Air quality - Workplace atmospheres - Membrane filter sampling for determination of fiber concentration by microscopy techniques: MOCP, MEBA and META - MOCP counting
- **NF EN ISO 9241-960** Ergonomics of human-system interaction -- Part 960: Framework and guidance for gesture interactions

### New OS&H standards work

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

#### **Industrial trucks**

- **Revision EN 16307-1** Industrial trucks - Safety requirements and verification - Part 1: Supplementary requirements for self-propelled industrial trucks, other than driverless trucks, variable-reach trucks and burden-carrier trucks
- **ISO 6292** Powered industrial trucks and tractors -- Brake performance and component strength

#### **Mobile road construction machinery**

- **ISO 20500** Mobile road construction machinery -- Safety
  - Part 1: Common requirements
  - Part 2: Specific requirements for road-milling machines
  - Part 3: Specific requirements for soil-stabilising machines and recycling machines
  - Part 4: Specific requirements for compaction machines
  - Part 5: Specific requirements for paver-finishers
  - Part 6: Material feeder
  - Part 7: Specific requirements for slipform paver and texture curing machines

#### **Printing and paper machinery**

- **Revision EN 1034-1** Safety of machinery - Safety requirements for the design and construction of paper making and finishing machines - Part 1: Common requirements
