

New standards publications, new works, registration of new subjects or comity creations at the European (CEN) or international (ISO) levels... Below is the result of the monitoring that EUROGIP does, as part of its [standardization activity](#) in health and safety at work (OS&H). Do not hesitate, if you are interested in the subject, to position yourself and participate.

OS&H standards published

NF EN ISO 16093 Machine tools -- Safety -- Sawing machines for cold metal

NF E09-031 Footswitches for starting and stopping - Technical specifications for prevention - Checks and tests

New OS&H standards work

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

Respiratory protective devices

ISO 17420-1, 17420-2, 17420-4, 17420-5, 17420-6

Respiratory protective devices - Performance requirements

- Part 1: Supplied breathable gas devices
- Part 2: Filtering device
- Part 4: Special application fire services
- Part 5: Filtering and supplied breathable gas devices
- Part 6: Special application other than fire services and escape - Filtering and supplied breathable gas device

Industrial trucks

ISO 22915-2 & 22915-8

Industrial trucks -- Verification of stability

- Part 2: Counterbalanced trucks with mast
- Part 8: Additional stability test for trucks operating in the special condition of stacking with mast tilted forward and load elevated

Personal protective equipment

ISO 13287 Personal protective equipment - Footwear - Test method for slip resistance

Lifting platforms

EN 1808-1 & 1608-2

Safety requirements for suspended access equipment - Design calculations, stability criteria, construction - Examinations and tests

- Part 1: Temporary Suspended Platforms
- Part 2: Building Maintenance Unit
