

New standards publications, new works, registration of new subjects or comity creations... Below is the result of the monitoring that EUROGIP does, as part of its [standardization activity](#) in health and safety at work, for the month of October et November 2017. Do not hesitate, if you are interested in the subject, to position yourself and participate.

Health and Safety at Work standards published

- **EN 14955-1** Machines-outils - Évaluation environnementale des machines-outils - Partie 1 : méthode de conception pour l'efficacité énergétique des machines-outils
- **EN 474-1+A5** Engins de terrassement - Sécurité - Partie 1: prescriptions générales
- **EN 13001-3-1+A2** Appareils de levage à charge suspendue - Conception générale - Partie 3-1 : états limites et vérification d'aptitude des charpentes en acier

New Health and Safety at Work standards work

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

Construction equipment and building material machines

- **Revision EN 15571** Machines and plants for mining and tooling of natural stone - Safety - Requirements for surface finishing machines
