

New standards publications, new works, registration of new subjects or comity creations... Below is the result of the monitoring that EUROGIP does, as part of its standardization activity in health and safety at work. Do not hesitate, if you are interested in the subject, to position yourself and participate.

Health and Safety at Work standards published

NF ISO 6750-1 Earth-moving machinery - Operator's manual - Part 1: Contents and format

NF EN ISO 28927-1 (Revision) Hand-held portable power tools - Test methods for evaluation of vibration emission — Part 1: Angle and vertical grinders

NF EN 27065/A1 (Revision) Protective clothing - Performance requirements for protective clothing worn by pesticide applicators and re-entry workers - Amendment 1: substitute test chemical

ISO 11203:1995/A1 Acoustics - Noise emitted by machinery and equipment - Determination of emission sound pressure levels at a work station and at other specified positions from the sound power level - Amendment 1

ISO 7010:2019/A1 Graphical symbols - Safety colours and safety signs - Registered safety signs - Amendment 1

FD S78-100 Personal Noise Protectors - A Guide to Selecting, Using and Maintaining (Selecting, Using and Maintaining)

New Health and Safety at Work standards work

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

Workplace acoustics

ISO 23591 Acoustic quality criteria for music rehearsal rooms and spaces

Workplace atmospheres

ISO 21438-1 Workplace atmospheres — Determination of inorganic acids by ion chromatography — Part 1: Non-volatile acids (sulfuric acid and phosphoric acid)

Machines

WI 00144393 Agricultural and forestry machinery - Light signalling devices and installation on mounted implements

ISO 16089/A1 Machine tools — Safety — Stationary grinding machines

Protective clothing

ISO 24588 Protective clothing. Personal protective ensembles for use against chemical, biological, radiological and nuclear (CBRN) agents. Classification, performance requirements and test methods

Additive manufacturing

ISO/ASTM 52931 Additive manufacturing — Environmental health and safety — Standard guideline for use of metallic materials
