

New standards publications, new works, registration of new subjects or comity creations... Below is the result of the monitoring that EUROGIP does, as part of its standardization activity in health and safety at work. Do not hesitate, if you are interested in the subject, to position yourself and participate.

### Health and Safety at Work standards published

**NF EN ISO 21832 (Revision)** Workplace air - Metals and metalloids in airborne particles - Requirements for evaluation of measuring procedures

**NF ISO 22915-15 (Revision)** Industrial trucks — Verification of stability — Part 15: Counterbalanced trucks with articulated steering

**NF ISO 13772/A1 (Revision)** Forestry machinery — Portable chain-saws — Non-manually actuated chain brake performance — Amendment 1

**NF EN ISO 3691-1/A1** Industrial trucks - Safety requirements and verification - Part 1: Self-propelled industrial trucks, other than driverless trucks, variable-reach trucks and burden-carrier trucks - Amendment 1

**NF ISO 10968 (Revision)** Earth-moving machinery — Operator's controls

**NF EN 1009** Machines for mechanical processing of minerals and similar solid materials - Safety

- Part 1: Common requirements for machinery and processing plants
- Part 2: Specific requirements for feeding machinery and continuous handling equipment
- Part 3: Specific requirements for crushing and milling machinery
- Part 4: Specific requirements for screening machinery
- Part 5: Specific requirements for cleaning, recycling, sorting and mud treatment machinery

**NF ISO 16900-7 (Revision)** Respiratory protective devices — Methods of test and test equipment — Part 7: Practical performance test methods

**NF EN ISO 9241-110 (Revision)** Ergonomics of human-system interaction - Part 110: Interaction principles

**NF EN ISO 11203/A1** Acoustics - Noise emitted by machinery and equipment - Determination of emission sound pressure levels at a work station and at other specified positions from the sound power level - Amendment 1

### New Health and Safety at Work standards work

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

#### **Earth-moving machinery**

**ISO 3164/A1 (Revision)** Earth-moving machinery — Laboratory evaluations of protective structures — Specifications for deflection-limiting volume — Amendment 1

**ISO 13459/A1 (Revision)** Earth-moving machinery — Trainer seat — Deflection limiting volume, space envelope and performance requirements — Amendment 1

#### **Packaging machines**

**EN 415-2 (Revision)** Packaging machines safety - Part 2: Pre-formed rigid container packaging machines

#### **Machine tools**

**ISO 16090-1 (Revision)** Machine tools safety — Machining centres, milling machines, transfer machines — Part 1: Safety requirements
