

New standards publications, new works, registration of new subjects or comity creations... Below is the result of the monitoring that EUROGIP does, as part of its standardization activity in health and safety at work. Do not hesitate, if you are interested in the subject, to position yourself and participate.

Health and safety at work standards published

NF EN 13274-4 (revision) Respiratory protective devices - Methods of test - Part 4: Flame tests

NF ISO 16900-14 (revision) Respiratory protective devices — Methods of test and test equipment — Part 14: Measurement of sound pressure level

NF EN 16307-1 (revision) Industrial trucks - Safety requirements and verification - Part 1: Supplementary requirements for self-propelled industrial trucks, other than driverless trucks, variable-reach trucks and burden-carrier trucks

NF EN 16842-10 Powered industrial trucks - Visibility - Test methods and verification - Part 10: To-wing and Pushing tractors and Burden carrier

NF EN 469 (revision) Protective clothing for firefighters - Performance requirements for protective clothing for firefighting

NF EN 689+AC Workplace exposure - Measurement of exposure by inhalation to chemical agents - Strategy for testing compliance with occupational exposure limit values

NF E85-016 (revision) Elements of industrial facilities - Permanent means of access - Fixed ladders

FD CEN/TR 17506 Guidance on databases for human vibration

FD CEN/TR 15350 (revision) Mechanical vibration - Guideline for the assessment of exposure to hand-transmitted vibration using available information including that provided by manufacturers of machinery

FD X46-041 Guidelines for the interpretation of the standard NF X46-020 - Asbestos survey - Survey of materials and products containing asbestos in buildings - Mission and methodology

New Health and safety at work standards work

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

Plastics and rubber machines

EN 1417 (revision) Plastics and rubber machines - Two-roll mills - Safety requirements

Foot and leg protectors

ISO 22568-4 Foot and leg protectors - Requirements and test methods for footwear components - Part 4: Non-metallic perforation resistant inserts
