

April 2026

As part of its occupational health and safety (OHS) [standardization](#) activities, EUROGIP monitors European (CEN) and international (ISO) new standards publications, new works, registration of new subjects and comity creations.

## PUBLICATION OF OHS STANDARDS

<b>NF EN 13001-3-6</b> Révision	Cranes - General design - Part 3-6: Limit states and proof of competence of machinery - Hydraulic cylinders
---------------------------------	---

## NEW OHS STANDARDIZATION WORK

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

### Acoustics

<b>ISO 9296</b>	Acoustics - Declared noise emission values of information technology and telecommunications equipment
-----------------	---

### Air in the workplace

<b>XP X43-127</b>	Air in the workplace – Sampling and analysis of per- and polyfluoroalkyl compounds and other volatile fluorocarbon molecules
-------------------	--

### Cranes

<b>ISO 4309</b>	Cranes - Wire ropes - Care and maintenance, inspection and discard
<b>ISO 11660-1</b>	Cranes - Access, guards and restraints

### Earth-moving machinery

<b>NF ISO 22543</b>	Earth-moving machinery - Indications for bystanders
---------------------	---

### Ergonomics

<b>NF EN ISO 9241-391</b> Revision	Ergonomics of human-system interaction - Part 391: Requirements, analysis and compliance test methods for the reduction of photosensitive seizures
---------------------------------------	--

## Head protection

<b>NF EN 397:2025/prA1</b>	Industrial safety helmets
----------------------------	---------------------------

## Industrial furnaces

<b>ISO 13578</b>	Industrial furnaces and associated processing equipment — Safety requirements for machinery and equipment for production of steel by electric arc furnaces
<b>NF EN ISO 13577-2</b> Revision	Industrial furnaces and associated processing equipment - Safety - Part 2: Combustion and fuel handling systems
<b>NF EN ISO 13577-3</b> Revision	Industrial furnaces and associated processing equipment - Safety - Part 3: Generation and use of protective and reactive atmosphere gases
<b>NF EN ISO 13577-4</b> Revision	Industrial furnaces and associated processing equipment - Safety - Part 4: Protective systems

## Laboratory facilities

<b>NF X15-206</b> Revision	Laboratory fume cupboards - Threshold for confinement and speed tests
<b>NF X15-211</b> Revision	Laboratory equipment - Recirculatory filtration fume cupboard - General, classification, requirements

## Nanotechnologies

<b>ISO/TS 3181</b>	Nanotechnologies - Total, encapsulated, and free drug quantitation in doxorubicin hydrochloride liposomal formulations using reversed phase high performance liquid chromatography (RP-HPLC)
--------------------	--

## Portable machines

<b>XP ISO/TS 26283</b>	Measurement and evaluation of reaction load exposure from powered handheld tightening tools
------------------------	---

## Protection against falls from height

<b>NF EN 353-2/A1</b>	Personal protective equipment against falls from a height - Guided type fall arresters on a flexible anchorage line
<b>ISO 26271</b>	Personal equipment for protection against falls - Selection, use and maintenance

## Respiratory protective devices

<b>ISO 16900-1</b>	Respiratory protective devices - Methods of test and test equipment - Part 1: Determination of inward leakage
--------------------	---

## Safety of machinery

<b>ISO Guide 78</b>	Safety of machinery - Rules for drafting and presentation of safety standards
---------------------	---
