

September / October 2026

As part of its occupational health and safety (OHS) [standardization](#) activities, EUROGIP monitors European (CEN) and international (ISO) new standards publications, new works, registration of new subjects and comity creations.

PUBLICATION OF OHS STANDARDS

NF EN 15090 Revision	Footwear for firefighters
NF EN 14238 Revision	Cranes - Manually controlled load manipulators
NF EN ISO 20785-4 Revision	Dosimetry for exposures to cosmic radiation in civilian aircraft - Part 4: Validation of codes
NF EN ISO 18090-1 Revision	Radiation protection - Characteristics of reference pulsed radiation - Part 1: Photon radiations
NF EN ISO 8690	Measurement of radioactivity - Gamma and beta emitting radionuclides - Test method for evaluating the decontaminability of surface materials
NF EN ISO 14505-2 Revision	Ergonomics of the thermal environment - Evaluation of thermal environments in vehicles - Part 2: Determination of equivalent temperature
NF EN 62841-3-12/A11	Electric motor-operated hand-held tools, transportable tools and lawn and garden machinery - Safety - Part 3-12: Particular requirements for portable threading machines
NF EN IEC 62046 Revision	Safety of machinery - Application of protective equipment for the detection of the presence of persons
NF EN 1915-2 Revision	Aircraft ground support equipment - General requirements - Part 2: Stability and strength requirements, calculations and test methods
NF EN ISO 31915-3 Revision	Aircraft ground support equipment - General requirements - Part 3: Vibration, reduction and measurement methods
NF EN 12312-20 Revision	Aircraft ground support equipment - Specific requirements - Part 20: Ground power supply equipment

NEW OHS STANDARDIZATION WORK

The new subjects are registered at the CEN or ISO preliminary stage, or submitted to the ISO approval vote. It may be a question of the launching of new work as well as the reactivation of a subject / working group.

Agricultural Machinery

NF EN 18422	Agricultural machinery - Operator field of view from self-propelled machines - General design requirements, test methods and acceptance criteria
--------------------	--

ISO/AWI 26604-1

Tractors and agricultural machinery - Safety of autonomous machines - Part 1: Soil tillage machines

Cranes

NF EN 13001-3-4 Revision

Cranes - General design - Part 3-4: Limit states and proof of competence of machinery - Bearings

Ergonomics

NF EN 1005-2 Revision

Safety of machinery - Human physical performance - Part 2: Manual handling of machinery and component parts of machinery

NF ISO 25563

Ergonomics - Integration method for physical assistance devices with restraint (exoskeletons) - Needs expression, selection, design, evaluation and deployment

Industrial Thermal Process Equipment

ISO 13577-1

Industrial furnaces and associated processing equipment - Safety - Part 1: General requirements

Laboratory Installations

NF EN 12469-4 Revision

Microbiological safety cabinets - Part 4: Class IV BSC

Material Removal Manufacturing Equipment

NF EN 18444

Safety requirements for nonwoven products

ISO 16156

Safety of machine tools - Safety requirements for the design and construction of work holding chucks

Personal Protective Equipment

NF EN ISO 11611 Revision

Protective clothing for use in welding and allied processes

NF EN ISO 374-4 Revision

Protective gloves against dangerous chemicals and micro-organisms - Part 4: Determination of resistance to degradation by chemicals

Portable Power Tools

NF EN ISO 28927-2
Revision

Hand-held portable power tools - Test methods for evaluation of vibration emission - Part 2: Wrenches, nutrunners and screwdrivers

Respiratory Protective Devices

ISO/AWI 16975-3

Respiratory protective devices - Selection, use and maintenance - Part 3: Fit testing procedures

Safety of Machinery

NF EN ISO 14120 Revision

Safety of machinery - Guards - General requirements for the design and construction of fixed and movable guards

NF EN ISO 13850 Revision

Safety of machinery - Emergency stop function - Principles for design

NF EN ISO 13857 Revision	Safety of machinery - Safety distances to prevent hazard zones being reached by upper and lower limbs
NF EN ISO 14120 Revision	Safety of machinery - Guards - General requirements for the design and construction of fixed and movable guards

Surface Treatment Equipment and Installations, and Foundry Machinery

NF EN 12621 Revision	Machinery for the supply and circulation of coating materials under pressure - Safety requirements
NF EN 1953 Revision	Atomising and spraying equipment for coating materials - Safety requirements
